COMMENTS

Acute JPFE Delays

Communication issue with PPU / Lothian.

14hrs as no CSA trained paediatrician.

Delay from reporting to police to IRD.

8hrs between decision to have JPFE and exam. Police tried VRI first and had to locate mother for consent.

Discussed on 26/10 but exam arranged for 29/10.

YP refused to travel to Edinburgh at night for exam.

Not co-operating for VRI then patient changed appt.

To facilitate patient who did not agree initially to examination.

Overnight.

Presented to ED 2/9/18 am - medical on 3/9/18 4pm.
